Conference Organising Committee

The LAMS Conference Organising Committee would like to thank all the authors, presenters, reviewers, sponsors, technical support team and other conference helpers, for their time and efforts in ensuring the conference came to fruition. We would also like to thank the University of Greenwich for the use of the venue for the conference.

Welcome

Welcome to all our delegates for the 2007 European LAMS Conference. As with the First International LAMS Conference in Sydney, Australia in December 2006, we are delighted by the wide audience, including many international visitors. This interest illustrates the growing global interest in LAMS and Learning Design, and we appreciate the distances traveled to be part of this conference.

We were very pleased at the response to the call for proposals. The variety of academic papers and presentations in the program should provide an interesting conference for all delegates. As with our previous conference, we hope to make slides and audio recordings available after the event to provide a record for those who could not join us in person at the time.

We are especially pleased to welcome Professor Diana Laurillard from the London Knowledge Lab (University of London) in the United Kingdom as a Keynote Speaker.

We would like to thank Eduserv, JISC (Joint Information Systems Committee), LAMS Foundation, LAMS International Pty Ltd and Macquarie University for sponsoring and supporting the conference.

A special thank you to the review committee for giving their time to assess presentation proposals and to peer review full papers submitted for the conference proceedings. We gratefully appreciate their time and very thoughtful comments. A sincere thank you to Simon Walker and colleagues from the University of Greenwich, who have made it possible to hold this conference in the UK. Without Simon's encouragement and practical support, this conference would not have been possible, so on behalf of the organising team half a world away in Sydney, this was much appreciated. Special thanks also to Renee Vance and Leanne Cameron for their tireless logistical and practical support, to Johnny Ly for support from LAMS International, and to Angela Voerman for special assistance on reviewing and editing.

We hope you have an informative and enjoyable time at the conference, and look forward to interesting discussions and collaborations in the future!

Professor James Dalziel

on behalf of the Conference Organising Committee
